Building Project Update

A new location for laundry is being created in the former men's washroom area in the vestry. This part of the project is almost completed.

Windows have been removed from the west exterior wall in the vestry. The wall has been patched and the exterior finish of the wall has been removed to incorporate the wall into the new construction.

Shrubs and vegetation have been removed from the area of construction. Many perennials were able to be relocated and used elsewhere.

Excavation of the construction area is ongoing to allow for the concrete pad to be poured.

The sidewalk along the main entrance of the Church (west side) will be closed in the area of the excavation and new construction to facilitate the construction of the new building.
